Thanks Greg and all for the presentation. I'll be in touch after I talk to Chu Chang.  
Best,  
K

Mr. Mayor & Kyra,

Thank you again for your time on Thursday. We are heartened by your support for an objective review of our plans to deploy the SAFE Foundation System in San Jose. Our mission is to protect people, property and communities from natural disasters and the countdown clock is ticking towards the next event---it doesn't have to be a disaster.

**Subject:** Jeff Smith, Saris Regis intro for Arx Pax & the SAFE Foundation System

Mr Mayor,

Great to see you at the SVLG CEO BBQ last week. I'm very glad my wife, Jill was able to meet you.

You mentioned you would be willing to make an introduction to Jeff Smith at Sares Regis. The last time we spoke with someone from SR was in March 2017 when we met with Jeff Birdwell and his team about the Nvidia campus.

They definitely need to know about SAFE and an introduction from you would be extremely valuable. I have attached an overview for you share with him. Saris Regis would make an excellent partner to help unlock 'unbuildable' land for more housing and jobs and less traffic.

Thanks in advance.

#BuildSAFE!

As discussed, our initial goal is simply the "conceptual approval," we need to obtain and commit resources to enable an objective, thorough evaluation of our technology by city staff in the interest of the public's health safety and welfare.

Attached please find a copy our Preliminary Review document and our DRAFT AMMC application. Please note the last line of the application form:

For proposals that are processed prior to submittal of a full set of plans, only a conceptual approval can be given; a valid approval to proceed with the proposal requires submittal of all construction documents.

Thank you.
